

PROFESSIONAL LEARNING WORKSHOP

Kick-Start for Fall Planning

During this one-day virtual workshop, school and district leaders will prepare for a successful return to school in the fall. We'll review the NWEA® 2020 norms and take a deeper dive into four key principles to inform instructional decisions for the upcoming school year. In partnership with the Nebraska Department of Education, we're offering this workshop at no local cost.

What you'll learn:

- + Explore strategies to inform the instructional decisions needed in preparation for returning to school
- + Address social-emotional learning needs to support resiliency in the full school community
- + Understand key updates in the 2020 norms and how a new norming study impacts educators' use of MAP® Growth™ data
- + Design and plan systemic resources and structures that optimize student learning
