

# ONLINE MAP GROWTH BASICS

## Get started with MAP Growth

Online MAP® Growth™ Basics establishes the foundational concepts educators need to be successful with MAP Growth assessments and to communicate the value of the data across all schools. No matter your level of experience with MAP Growth, you can explore self-paced learning opportunities and engage with a community of educators and NWEA® professional learning experts anytime.

### Maximize learning

- + Understand the purpose of MAP Growth and the data it provides about students
- + Identify ways to integrate MAP Growth reports and data into instruction
- + Leverage planning tools and additional resources to help build expertise

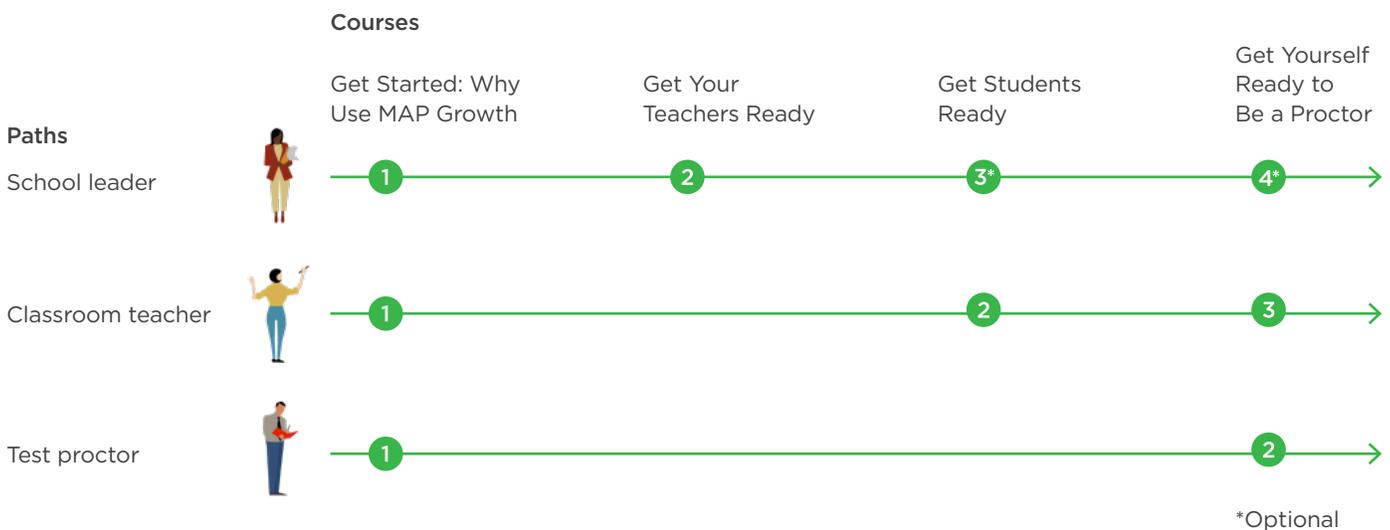

### How to prepare staff

- + Let them know to expect an email invitation
- + Advise them on their estimated participation time, depending on their role (see chart below and course descriptions on p. 2)
- + Ask them to complete assigned courses before your MAP Growth testing begins

### How to complete

- + Begin with the course called [Get Started: Why Use MAP Growth](#)
- + Continue with courses that are relevant to your role in MAP Growth

## Typical role-based learning paths

## WHO SHOULD PARTICIPATE

### Primary audience:

- School leaders
- Teachers
- Test proctors

### Secondary audience:

- Others involved in MAP Growth testing preparation

## DELIVERY & DURATION

- Online
- Self-paced
- Access learning anytime

## MATERIALS

- eLearning
- Digital resources

## EXTEND YOUR LEARNING

- Access to [NWEA Professional Learning Online](#)
- eLearning available anytime
- Opportunity to engage with a community of fellow practitioners

## CONNECT

Get in touch with your account manager by email or call 866.654.3246. We'll be happy to discuss your needs.

## Course list and resources

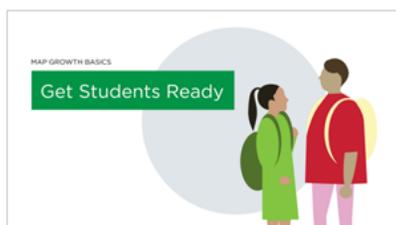

### **Get Started: Why Use MAP Growth** (15–20 min.)

- + Learn about the benefits of MAP Growth for you and your students
- + Through a series of prompts and exercises, explore why your school has chosen to use MAP Growth and how it can help your school meet educational goals

### **Get Your Teachers Ready for MAP Growth** (15–20 min.)

- + Prepare teachers for the integration of MAP Growth
- + Identify success factors and potential obstacles for your school
- + Create a presentation to introduce MAP Growth to your teachers

### **Get Students Ready for MAP Growth** (10–20 min.)

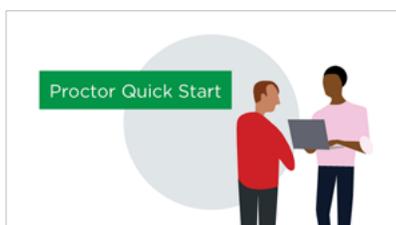

- + Find out how to prepare students to do their personal best on the MAP Growth tests
- + Complete a lesson plan to teach students the purpose of MAP Growth and help them prepare to take a computer-adaptive test

### **MAP Growth K-2: Getting Started** (20 min.)

For primary grade teachers; included in *Get Students Ready for MAP Growth*

- + Identify the assessments available in MAP Growth K–2
- + Determine which assessments you'll use to achieve your instructional goals

### **Get Yourself Ready to Be a Proctor** (22 min.)

- + **Proctor Quick Start:** Perform the basic procedures of MAP Growth testing
- + **Set Up Testing:** Set up sessions ahead of time, save them, and open them
- + **Interrupt and Continue Testing:** Pause or continue testing later
- + **Make-up Testing:** Bring together students to finish testing

### **Resources for other roles**

- + [Data Administrator Help](#)
- + [Assessment Coordinator Help](#)
- + [Technical Coordinator Help](#)

### **Additional information**

- + Participants can access and complete courses based on their schedule. Courses and their status are displayed on the participant's transcript and administrative reports.
- + The courses also tie seamlessly into the [MAP Help Center](#) and [NWEA Community](#) sites. The MAP Help Center supports your implementation and day-to-day use; the NWEA Community connects you with other educators and NWEA experts.
